Thumbprint Renew — Content Modernization & CLO Services

CUSTOM SCOPE · NO OBLIGATION

Renew

FOR ORGANIZATIONS READY TO GROW

Your training content hasn't kept pace with your organization. Let's fix that.

Renew transforms outdated training, onboarding, and curriculum into modern, multi-modal learning experiences — with ongoing LMS administration and fractional CLO leadership included.

WHAT RENEW INCLUDES

Content modernization

Existing training redesigned into current formats — video, interactive, mobile-ready — without losing what works.

Multi-modal redesign

One format doesn't reach everyone. We rebuild curriculum to work across learning styles and delivery methods.

LMS hosting & administration

We manage the platform so your team doesn't have to — enrollment, reporting, updates, and ongoing maintenance.

Fractional CLO services

Strategic learning leadership without the full-time hire — gap analysis, roadmap, and ongoing direction.

Outdated training isn't neutral — it's actively costing you in performance, compliance risk, and staff frustration. The gap is showing up in your results right now.

WHO THIS IS BUILT FOR

Clinic owners with staff

Training that scales without you in every onboarding session

Growing organizations

Your team is outgrowing the systems you built when it was just you

Established operations

Content built years ago that hasn't been touched since — and it shows

All pricing is custom-scoped

Every Renew engagement starts with a discovery call — we map what you have, identify the gaps, and scope a solution. No obligation until you've seen exactly what we'd build.

Book a discovery call

No obligation — custom scope
